# SCAN COIN RCS 800

## Retail Cash System with Note Dispenser and Bag Deposit

The SCAN COIN Retail Cash System offers cost-effective, secure retail cash handling. By streamlining cash administration and verification procedures, the system enables faster, more efficient cashier routines for collecting cash floats and depositing the day's takings. Improved in-store cash flow management, with automatic recycling of coins and note deposit – increases efficiency and staff flexibility. All to ensure a rapid and significant return on investment.

### Cash recycling with RCS 800 with bag deposit

After registering on the RCS 800, the cashier selects the cash mix for the day. In less than 30 seconds, coins and notes are automatically dispensed, coins into the cashier's specified cash drawer. Banknotes are dispensed from the note dispenser device in parallel, and a receipt is printed. All activities are registered in the machine's database or sent via the monitoring software to a central server.

### Maximum cash flow control

During the day, the RCS 800 also serves as a continuous cash supplier, enabling a supervisor to support cashiers with change when needed.

At the end of the day, the cashier registers at the RCS 800 and quickly deposits coins from the day's takings. The coins are safely stored in dispensers ready for future float dispensing.

Notes, cheques and coupons are manually keyed into the system, put in a seal bag and registered by the barcode scanner. The bag is stored in the note safe until picked up by e.g. CIT.

The RCS 800 is designed for easy integration with the customers' software systems, such as business or back-office systems.

### Benefits

#### Minimise manual labour ...

- time-consuming manual counting and packaging of coins is eliminated
- back-office staff are released to focus on other, more customer-related tasks
- automatic dispensing of the daily floats saves a lot of time

#### ... and maximise cash flow control

- automatic counting of the day's takings per cashier or cash drawer
- automatic verification of the takings, morning/evening
- the coins are re-circulated within the store, which means less need for buying cash
- all activities are registered and saved for tracking purposes
- processing accuracy assured with patented SCAN COIN sensor technology
- less shrinkage, fewer counterfeits and security risks

### TECHNICAL SPECIFICATIONS

<b>WIDTH RCS 800 &amp; NOTE DISPENSER</b>	1,040 mm / 40.94"
<b>DEPTH RCS 800 &amp; NOTE DISPENSER</b>	580 mm / 22.8"
<b>HEIGHT</b>	1,500 mm / 59.0"
<b>WEIGHT RCS 800 &amp; NOTE DISPENSER</b>	530 kg / 1,168 lbs
