We asked Centrebus in Leeds

“Manual cash counting was taking too much time.....the CDP 4 saves time all-round.”

David Brookes
Centrebus, Leeds

...why did you choose the CDP 4 automated cash deposit system?

‘Realising that manual cash handling was taking up too much time it made sense to move to an automated cash counting process. Having previously used SCAN COIN for cash processing solutions we knew that implementing the CDP 4 system would be cost-effective, would improve accuracy and also be less time-consuming when calculating the drivers’ takings. Additionally, SCAN COIN’s CDP 4 provides greater security, and combined with its easy interface means that our drivers needed little training in order to use the system.’

...what are the benefits?

‘The CDP 4 saves time all-round. Drivers no longer have to spend time manually counting their takings as the system now quickly and accurately counts the money for them. The machine also dispenses a receipt which can be used to easily solve queries should there be any discrepancies about the amount deposited.’

» your partner for profit

The CDP 4 offers a fast, convenient and secure method of depositing cash. It processes bank notes, coins and transport tokens and can accept non-cash items deposited in a drop safe to be retrieved with the cash. Working with ticketing revenue systems, the machine quickly collates shorts and overs so that prompt action can be taken. Internally stored cash data can be transferred over a network connection which can also be used to monitor machine operation. The same connection can also be used by engineers on-site or remotely to diagnose problems. With a choice of front or rear access, the CDP 4 is the ideal solution for any location.

» technical specification

Width	800 mm / 31.5" (footprint)
Depth	730 mm / 28.7" (footprint)
Height	1,565 mm / 61.6" (RS) / 1,616 mm / 63.6" (FS) with LSC-RA / FA
Voltage	100 - 130 / 200 - 240 V, 50 / 60 Hz
Coin acceptance	Up to 800 coins / min
Diameter range	14.0 - 33.0 mm / 0.55 - 1.30"
Thickness range	1.0 - 3.5 mm / 0.04 - 0.14"
Note acceptance	Single note, 4 seconds / note
Emptying / service	From rear or front. To be specified on order
Screen	10.4" TFT flat screen with eight function keys
