

## » case story

## We asked Travel de Courcey

### ...why did you choose the CDS 830 automated cash deposit system?

'Counting our drivers' cash was taking up to 5 - 6 hours per day, and as we became increasingly busier we required a less time-consuming, more cost-effective means of cash processing. We had used SCAN COIN for our cash processing needs in the past and were impressed with the results achieved and the service offered by SCAN COIN's support team. The CDS 830 was the most suitable product for our needs, as not only would it allow us to reduce the time spent counting our drivers' takings but it would also provide our drivers with a receipt of the cash deposited, which would assist us with identifying shorts and overs.'

### ...what are the benefits?

'Installing the CDS 830 has reduced our cash processing from 5 - 6 hours to 1.5 hours per day, freeing our drivers up, allowing them to get back on the road. The CDS 830 also provides us with a more safe and secure cash handling process, whilst the detailed reports sent to our ticketing system allow us to monitor any discrepancies in our drivers' takings.'

"The CDS 830 has reduced our cash processing from 5-6 hours to 1.5 hours."

Ben Hobday

## » your partner for profit

The CDS 830 offers a fast, secure and accurate means of depositing cash. The machine processes both notes and coins, and incorporates SCAN COIN patented sensor technology, which identifies and counts deposited coins, whilst rejecting foreign, damaged and counterfeit coinage. Based on a new modular concept, the CDS 830 also allows you to optimise performance and features according to your needs, creating a unique customer-specific solution. Additionally, the optional card reader and encrypted pin pad provide complete control over access to the CDS 830, and on-line connectivity allows full integration into your IT environment.

## » technical specification

Width	580 mm / 22.8"
Depth	580 mm / 22.8"
Height	1,245 mm / 49"
Voltage	100 - 130 / 200 - 240 V, 50 / 60 Hz
Coin acceptance	Up to 800 coins / min
Diameter range	14.0 - 33.0 mm / 0.55 - 1.30"
Thickness range	1.0 - 3.5 mm / 0.04 - 0.14"
Note acceptance	Single note, 4 seconds / note
Emptying / service	From rear or front. To be specified on order
Screen	10.4" TFT flat screen with eight function keys or 15" touch screen
Network connection	10/100 Base - T Fast Ethernet
Operating system	Windows™ XP

Coins and notes  
- a total cash deposit
